

# Provider Card - Hepatitis B

- Give this card to your medical provider.
- Talk to your doctor about getting tested and vaccinated for hepatitis B.

Hepatitis B is a serious disease that can lead to liver damage, liver cancer, and even death. The first step to health is knowing your hepatitis B status.

DOH 420-436 October 2022

## Dear medical provider,

I want to be screened for hepatitis B. If the tests show that I am at risk for hepatitis B infection, I would like to begin the vaccination series.

I am asking because I understand that screening for hepatitis B is recommended by the CDC for people born in areas where hepatitis B is more common or whose parents were born in those areas, such as Africa, Asia, Eastern Europe, and the Pacific Islands.
