- The anticipated patient visits for surgical services provided at the surgery center will be approximately 5.16% of the total patient visits to the facility.

### **CONCLUSION**

### **CHANGES THAT MAY AFFECT THIS DECISION**

A facility can make changes that may impact the primary purpose of the facility, such as if the revenues or patient visits related to surgical services begin to regularly exceed half of the facility's operations. Changes, including but not limited to the following, will likely either prompt Certificate of Need review or necessitate a new determination of reviewability:

- A change of ownership;
- Operational changes;
- Expansion of services;
- The addition of operating rooms;
- A change in location; or
- If the physicians or the use of the facility changes which results in different total revenues or visits.

This decision may be appealed. You or any person with standing may request an adjudicative proceeding to contest this decision within 28 calendar days from the date of this letter. The notice of appeal must be filed according to the provisions of chapter 34.05 RCW and WAC 246-310-610.
