Yes  No If Yes, explain:

**Purpose:** Clarifying “culturally congruent care” in chapter 246-835 WAC, Birth Doula. The Department of Health (department) is adopting amendments to WAC 246-835-010 and 246-835-025 to update the definition of “culturally congruent care” and to clarify education and training requirements related to “culturally congruent care”.

The department is adopting amendments to the definition of the term “culturally congruent care” in WAC 246-835-010. The updated definition better reflects the practice of “culturally congruent care” for the birth doula profession and addresses concerns expressed by the doula community regarding the definition.

Adopted amendments to WAC 246-835-025 provide clarity for the training and education requirements in this section. The adopted rule separates the term “culturally congruent care” from “culturally congruent ancestral practices” and clarifies that training related to culturally congruent care fulfills the requirements in WAC 246-835-025, as well as training or experience related to culturally congruent ancestral practices.

The adopted rules are the result of consultation with interested individuals and birth doula community organizations and they are intended to more accurately reflect what is best practice in the birth doula profession. The adopted rules provide clarity, address concerns raised by interested individuals, reflect best practices, and aligns rule language with what the department has done in practice when reviewing applications and providing certifications for birth doulas.
